## Cohen's Lottery and Exchange-Office.

## Moc signo Fortuna.

BALTIMORE—THURSDAY, OCTOBER 23, 1828.

## All Tickets ending with 5

in the Maryland State Lottery, No. 6, for 1828, were decided yesterday afternoon at the drawing of the *First Sub-scheme*. All other Tickets are yet undetermined, and hold their chance for the prizes of the remaining sub-schemes.

On reference to the official list on the next page, it will be noticed that the first drawn number from the wheel was **18805**—consequently all tickets ending with 5, are prizes of *Four Dolls.* and are also entitled to whatever prizes they may have drawn besides.

The fate of all tickets ending with the figure 5, is therefore determined—the fate of the others will be decided by the remaining sub-schemes. Adventurers holding prizes can receive the cash as usual on presentation of their tickets at COHEN'S OFFICE, or they can have them renewed in the sub-schemes which follow; for which purpose, a little extra time will be allowed—Adventurers resident in this vicinity, will have time to renew for the *second sub-scheme*, which will be drawn on Wednesday the 12th November—those residing farther off, will be in time for the 3rd sub-scheme—and those at a distance will, at all events, be in time for the 4th sub-scheme, which is the most important as in it is contained the great Capital of TEN THOUSAND DOLLS.—the 3000 dolls. &c. &c.

Those who are not yet supplied with tickets or shares have still the opportunity of investing.

*Present prices remain, viz.*

Whole Tickets, \$5 00 | Quarters, . . 81.25  
Halves, . . 2.50 | Eighths, . . 62 cts.

\* \* ORDERS from any part of the United States, either by mail (post paid) or private conveyance enclosing the Cash or Prize Tickets will meet the same prompt and punctual attention as if on personal application. Address to

J. I. COHEN, Jr. & BROTHERS,—Baltimore.

For the information of adventurers, the Official list of the drawing will be published in the Register which will be forwarded gratis to those who may request it.

## Popularity of the Scheme.

We were much gratified at the universal satisfaction evinced by the crowd of Adventurers who attended the drawing yesterday afternoon. The mode of drawing being so much superior to the old mode.—We continue on the 4th page the scheme at large—it will be recollected that throughout the entire scheme, there are more Prizes than Blanks, and in fact, as we have stated heretofore, during the drawing of the 3 first schemes, which compose part of the whole series, there are NO BLANKS at all!

## The Prizes of Yesterday.

The 2000 dollar prize drawn yesterday, (No. 7655) is held in Baltimore in a whole ticket, and also the 500 dollar prize, (18875)—The prize of One Thousand Dollars, (No. 3675) we divided in Halves, and are held by DISTANT ADVENTURERS—we had the pleasure of sending One Half by mail to a gentleman in Ohio, so late as Monday last, and which of course will scarcely have reached him, before the Register with the list of the drawing will arrive and announce to him his good fortune—should we receive permission, we

shall be gratified in mentioning his name, and the particular place of his residence.

## The Ten Thousand Dolls. in No. 4.

It will be recollected that the Capital Prize of 10,000 dolls. (No. 1372) in State Lottery, No. 4, which was drawn in August last, was divided in shares—since our last publication, we have had the pleasure of paying the Cash to the fortunate holders—One Half was presented from the State of Ohio—One Quarter sent by the owner who resides in Augusta, Georgia; and the other Quarter from the owner at Fell's Point, Baltimore—the names of the owners we are not permitted to give, but can say, that dame Fortune has in these instances well bestowed her favors—in the case of the latter mentioned Quarter share, peculiarly so, as the owner is a worthy man, with a family, poor, and of great industry.

## PRESIDENTIAL ELECTION.

Table presenting a distinct view of the mode of choosing Electors of President and Vice-President in the several states of the Union, the time at which the Election is held in each State, and the number of Electors to which each is entitled—

STATES.	MODE.	NO. OF ELECTORS.	TIME OF ELECTION.

Mississippi	Gen. Ticket	3	—
Alabama	Gen. Ticket	5	November 10th

Total 261

A Philadelphia paper cautions its readers against buying lands in the county of Potter, (Pennsylvania,) described as Wild Lands sold by the Treasurer of the county for taxes. These lands, composed of mountains, rocks, &c have been sold at public sale for half a cent and less per acre, after being abandoned by the owners, as totally worthless. They have been bought by unprincipled speculations, and are now offering in the cities of Philadelphia, New York, and Boston, for sale or to be exchanged for merchandize.

NEW-YORK CANAL.—The Erie canal begins at the outlet of Lake Erie in a spacious harbor, and ends at the Hudson in a capacious basin. It is 362 miles in length, 40 feet in breadth, and 4 feet in depth. It is divided into 82 basins which are separated by 83 locks. The towing path is 8 feet wide;

all the locks aside from those at Lockport are single. The lockage in the aggregate is 678 feet and 10 inches. The two locks opposite to the city of Troy, whose lockage is 22 feet, are not taken into the estimate, nor are the five ascending locks at Lockport, whose lockage is 58 feet and 9 inches. The locks consist of five series, three are descending and two ascending. The descending series have 616 feet and 10 inches of lockage, and the ascending 22. The locks are severally 90 feet in length and 15 in breadth, within the gates. They are passed by boats in three minutes.—The canal is carried across ravines and valleys on embankments, and over creeks and rivers in aqueducts.

The Irondequot embankment is a stupendous work.—It is partly natural and partly artificial. Its length is 4950 feet, and its height from 40 to 76 feet. It stretches in a winding direction across the valley of the Irondequot.—Three slender ridges, lying in the course of the canal, are united by two mounds. The first and second are joined by a mound 1320 feet in length, raised to the height of 76 feet. The second and third are connected by a mound 231 feet long.

The aqueduct, over Genesee river, is the most magnificent work, of the kind, on the whole canal. It is 750 feet in length, has 12 piers and 11 arches. The parapets are 4 feet and 8 inches broad. That on the north side has an iron balustrade. This aqueduct is constructed of stone. The parapets afford a charming view of the river, and part of the rising village of Rochester.

The Erie Canal was commenced on the 14th day of July, 1817, and finished on the 15th day of October, 1825. The first boat that ever passed from Lake Erie to the Hudson, descended between the 16th and 31st of the latter month, having on board Mr. Clinton, then Governor of the state, and several other gentlemen.

Since the construction of the Erie Canal, three or more additional locks have been made on the eastern section.

New York Post Office.—It may be a matter of curiosity to our readers to see a statistical view of this establishment, which exceeds any other in the union in the amount of business transacted (with the exception perhaps of that at Washington,) and also in its receipts. There are eight clerks, and the whole number of persons employed is twenty four. The number of mails made up daily is about 150, most of them being large and for distribution at other offices. Nearly forty thousand newspapers pass through the office weekly, and the monthly and quarterly periodicals probably are one fourth that number weekly. Between fifty and sixty thousand letters are sent through the office every week. The Liverpool Packets usually deliver from 1500 to 2500 letters; the London about 500; the Havre 600 to 1200; the Mexican nearly 500, and the New Orleans 500. The packet ship Florida, which arrived last week from Liverpool, brought 2100 letters, which were counted, marked and ready for delivery in forty minutes. The amount of postage received during the quarter ending 30th June, exceeded \$38,000. The labor in this office is arduous, and the utmost activity, accuracy, and civility are required to expedite business, and do justice to the citizens and strangers who throng there for letters. We believe that generally speaking, there is a full persuasion that the affairs of the office are faithfully and satisfactorily conducted.—N. Y. Jou Commerce.

The U. S. frigate Guerriere, (says the Norfolk Beacon) which we stated on the 8th inst. had been ordered to be fitted for sea, at our Navy Yard, at Gosport, with all possible despatch. is, we learn, to proceed to the Pacific, and that Commodore WARREN will go out in her to take command of the United States' Squadron on that station.

## Tickets ending with 5.

The first drawn from the wheel was

**No. 18805**

—the terminating figure being 5, agreeably to the Scheme, therefore, all tickets ending with 5 are entitled to *Four Dollars* each, and in addition to whatever prize they may have drawn besides.

All other tickets are yet undetermined—the drawing will be continued by the Second Sub-scheme, on Wednesday, the 12th of Next Month, (November,) when the terminating figure of the first drawn number from the wheel, will decide the prizes in that sub-scheme, &c.

THOMAS SPICER,  
Clerk to Com'rs.

## Second Sub-scheme

OF THE

MARYLAND STATE LOTTERY, No. 6,

(Will be drawn on Wednesday, the 12th November.)

	4161 prizes..... \$39,800

*The whole of the Prizes payable in CASH, subject as usual to a deduction of 15 per cent.*

### MODE OF DRAWING—(Secured by Letters Patent under Seal of the United States:)

The wheel will contain 20,000 Numbers, (1 to 20,000 inclusive,) corresponding with the number of Tickets in the Lottery. On the drawing of the *First Sub-scheme*, the terminating figure of the first drawn number from the wheel will determine the 2000 prizes of \$4 of that Scheme—then to decide the remainder of the prizes of that Scheme, there will be drawn from another wheel containing exclusively all the Numbers in the lottery ending with the terminating figure of such first drawn, 106 numbers; to the first of which, will be awarded the prize of 2000 dolls.—to the next, will be awarded the prize of 1000 dolls.—to the 3d drawn number will be awarded the 500 dollar prize; and so on till the 106 superior prizes of the first Sub-scheme are all distributed.

On the drawing of the *Second Sub-scheme*, the first drawn number of a termination different from that of the first drawn of the *First scheme* will determine the 2000 prizes of \$4—then from a wheel containing exclusively all the numbers in the lottery, ending with such terminating figure, 106 numbers will be drawn;—to the first of which the prize of \$2000 will be awarded—to the second, the \$1000 prize will be awarded;—to the third, the \$500 prize will be awarded, and so on till the 106 superior prizes of the second Sub-scheme are all distributed.

On the drawing of the *Third Sub-scheme*, the first number of a termination different from those of the 1st and 2d Schemes, will determine the 2000 prizes of \$4—then from a wheel exclusively containing all the numbers in the lottery of such terminating figure, the 106 superior prizes of the third Sub-scheme will be awarded in the same manner as on the two preceding.

On the drawing of the *Fourth Sub-scheme*, the wheel will contain all the remaining undecided Numbers in the lottery, (14,000) being those composed of the terminations not drawn in either of the previous Sub-schemes—the other wheel will contain the prizes above the denomination of Five dollars, and the drawing to progress in the usual manner. The 4000 prizes of Five dollars will be awarded to the tickets, the numbers of which end with the terminating figure of either of the two first drawn numbers of different terminations.

In this Lottery, a Ticket drawing a superior prize will not be restricted from drawing an inferior one also.

The Drawing of the first sub-scheme took place on the 22d October, as previously announced.—The DRAWING of the SECOND SUB-SCHEME, will take place in the City of Baltimore on

*Wednesday, the 12th NEXT MONTH, (November.)*

Whole Tickets.....\$5.00 | Quarters.....\$1.25  
Halves.....2.50 | Eighths.....62

To be had in the greatest variety of Numbers at
